

COMPLETE CSS INTERVIEW NOTES (FULL STRUCTURED + EXAMPLES)

This document is a concise but interview-ready reference covering all CSS syntax families.

1. Basic Syntax

```
selector { property: value; }
```

2. Selectors

```
* {}  
p {}  
.class {}  
#id {}
```

3. Pseudo Classes

```
:hover {}  
:focus {}  
:nth-child(2) {}
```

4. Pseudo Elements

```
::before  
::after
```

5. Values

px, rem, %, vw, vh

6. Box Model

margin, padding, border, content

7. Layout

flexbox, grid

8. Position

relative, absolute, fixed, sticky

9. Animation

@keyframes

10. Media Queries

@media

11. Variables

--var, var()

12. At Rules

@import, @media, @keyframes, @font-face, @container, @layer

Mini HTML Example:

```
<html>  
<style>  
  .card { padding:20px; background:#eee; }  
</style>  
<body>  
  <div class='card'>Hello CSS</div>  
</body>  
</html>
```

--- END ---
